

Covid-19 - Keeping everyone safe

Introduction

This document is a recommendation guideline by the Bed and Breakfast Association

Pre-stay

1. **Guest Health** We ask all guests to be vigilant about their own health. Please do not come if you have coronavirus symptoms or you have had in the last week; if someone you live with has or has had coronavirus symptoms recently, or if you have been in contact with someone you know has had coronavirus.

Cleaning between Guests

1. Cleaning solutions with diluted household bleach or at least 70% alcohol are believed to be effective against Covid-19. We will use the appropriate product which will be left on surfaces for the required time to kill the virus. Products showing EN14675 or EN14476 will be used and we will follow the manufacturer's guidelines. All cleaning cloths, mops, bedding and towels will be changed, disposed of, or laundered appropriately between each clean.
2. Waste bins will be emptied and cleaned inside and out between stays.
3. Antibacterial Surface Cleanser spray will be used to sanitise frequent contact surfaces, and Sanitiser will be left on the bathroom dressing table for guests' use.
4. Windows and doors will be opened during cleaning to allow for ventilation.

Breakfast

As there is only one family group, or guest bubble at a time staying in the house, social distancing at the kitchen table is not an issue. All cutlery and crockery used will be well sterilised.

Liability

- 1 We accept no liability for a guest contracting COVID-19 during their stay. We will do our very best to make the B&B as safe and clean environment as possible, but we cannot control guest movements, the people they meet, or the standard of hygiene at other establishments they may visit.
- 2 **Be assured we would not knowingly put any of our guests at risk, and ask you do the same for us.**
